

RESEARCH & PUBLICATIONS:

DR. TRUONG NGOC HAI – MD

- 2017: Survey of the value of urinary microalbumin in predicting multi-organ dysfunction in sepsis patients / Nguyen Ly Minh Duy. Graduation Thesis (Internship Doctor) - University of Medicine and Pharmacy, Ho Chi Minh City, 2017.
- 2017: Study on clinical characteristics, laboratory findings, and mortality-related factors in hyponatremia patients in the Intensive Care Unit of Cho Ray Hospital / Phan Thanh Toan. Dissertation (Level II Specialization) – University of Medicine and Pharmacy, Ho Chi Minh City.
- 2018: Prognostic value of the central venous-to-arterial carbon dioxide partial pressure difference during the early phase of resuscitation in septic shock patients / Le Thi Cam Hong. Master's Thesis (Master of Medicine) – University of Medicine and Pharmacy, Ho Chi Minh City, Major: Internal Medicine (Critical Care).
- 2020: Investigation of factors affecting filter lifespan during continuous renal replacement therapy / [Author's name]. Dissertation (Level II Specialization) – University of Medicine and Pharmacy, Ho Chi Minh City, Major: Critical Care Medicine.
- 1999: Comparison of intermittent versus continuous tube feeding methods in critically ill patients – Presented at the Ho Chi Minh City Critical Care Conference 1999 – Published in Ho Chi Minh City Medical Journal, 2004.
- 2001: Investigation of risk factors for candidemia – Presented at the National Critical Care Conference 2001 – Published in Ho Chi Minh City Medical Journal, 2004.
- 2005: Continuous renal replacement therapy in the ICU at Cho Ray Hospital – Published in Journal of Practical Medicine, 2005 – Presented at the National Critical Care Conference, 2005.
- 2007: Effectiveness of continuous slow hemofiltration in cytokine removal – Published in Journal of Practical Medicine, 2007 – Presented at the Ho Chi Minh City Critical Care Conference, 2007.
- 2007: Pathogens causing ventilator-associated pneumonia in ICU patients at Cho Ray Hospital – Published in Journal of Practical Medicine, 2007.
- 2009: The role of procalcitonin in the diagnosis of sepsis – Published in Ho Chi Minh City Medical Journal.
- 2010: Investigation of risk factors for mortality in multi-organ failure patients in the Intensive Care Unit at Cho Ray Hospital – Published in Ho Chi Minh City Medical Journal.
- 2010: Survey of plasma cytokine levels (TNF- α , IL-1 α , IL-1 β , IL-2, IL-6, IL-8, IL-10) in multi-organ failure patients in the Intensive Care Unit at Cho Ray Hospital – Published in Ho Chi Minh City Medical Journal.
- 2010: Clinical characteristics, paraclinical features, and treatment effectiveness of continuous renal replacement therapy in multi-organ failure patients – Published in Journal of Practical Medicine, 2010 – Presented at the National Critical Care Conference, 2010.
- 2011: Survey results on patient satisfaction with treatment at the General Internal Medicine Department, Cho Ray Hospital – Published in Ho Chi Minh City Medical Journal.

- 2012: Application of the APACHE II and IPCS PSS scoring systems in predicting outcomes of paraquat poisoning patients – Published in Journal of Practical Medicine – Presented at the National Critical Care Conference, 2012.
- 2013: Effectiveness of multi-modal interventions in improving hand hygiene compliance rates among healthcare workers at the General Internal Medicine Department, Cho Ray Hospital.
- 2016: The role of central venous oxygen saturation in assessing fluid resuscitation response in septic shock – Published in Ho Chi Minh City Medical Journal.
- 2018: Survey of the value of urinary microalbumin in predicting acute kidney injury in sepsis patients – Published in Ho Chi Minh City Medical Journal.
- 2018: A study on clinical characteristics, paraclinical features, and factors related to mortality in hyponatremia patients at the Intensive Care Unit, Cho Ray Hospital – Published in Ho Chi Minh City Medical Journal.
- 2018: Reference range of serum pepsinogen in the Vietnamese population during routine health check-ups: A clinical exploratory study – Published in Ho Chi Minh City Medical Journal.
- 2019: Essential procedures in the medical doctor training program – Plenary session report – Third National Medical Education Conference – Hai Phong.
- 2021: Correlation of test values for unfractionated heparin monitoring in patients undergoing extracorporeal membrane oxygenation – Published in Ho Chi Minh City Medical Journal.
- 2021: Duration of filter use in continuous renal replacement therapy – Published in Ho Chi Minh City Medical Journal.
- 2021: Report of a case of transcatheter aortic valve replacement using COREVALVE EVOLUTe R via the carotid artery in a patient with degenerative aortic stenosis and chronic renal failure undergoing regular dialysis – Published in Ho Chi Minh City Medical Journal.
- 2021: Remdesivir plus Tocilizumab – Report on efficacy and safety in moderate and severe COVID-19 patients at Vinmec Central Park Hospital – Published in Ho Chi Minh City Medical Journal.
